### Richmond Terminal.

Special to the Gazette. New York, July 27.-Reports continued arrent about the financial condition of the Richmond Terminal company and liquidaion orders were executed ngain this morning. It is currently reported on the floor of the exchange that Richmond Terminal securities are being sold for the account of one of the directors who was among the party which forced Alfred Sully from the control some years ago. He is said to have met with severe losses in general opera-tions extending back for some years, and to be unable now to take un large amounts. be unable now to take up large amounts Thypothecated securities on which the

medial to the Gazette. New York, July 27 .- It is generally beeyed that a bear party has been organized with Keene at its head, and that its pur-ese is to put the market down to a point where it will attract buyers. This party as a large following already among room radiers, because they have been readily im-ressed with the power which has already been shown in its operations. It is believed that some of the sugar interests are in it. Representatives of this party say we shall have no bull movement here until there is no difficulty in getting time money. In the meantime, while there will be no serious break it is very plain that prices are likely break, it is very plain that prices are likely to sur under continued offerings by dis-gusted holders.

A Soft Market. secial to the Gazette. New Your, July 27.-The morning stock narket was a very soft one. Burlington, thicago gas and Northern Pacific were objectably weak. A very feverish tone prenoticeably weak. A very feverish tone pre-vailed. At the same time came reports of unprecedented receipts of wheat in West-ern cities and of greatly increased business to the railroads. Prices centinued to sag in the atternoon. A strong bear party is evidently at work shaking down prices. Final prices to-day were materially below Saturday's, but were slightly above the lowest of the day. Richmond Terminal was the greatest sufferer of all. A prominent director has failed and many of his loans were closed out, breaking stocks and bonds. were closed out, breaking stocks and bonds. British Grain Trade.

London, July 27 .- The Mark Lane Express in its weekly review of the British press in its weekly review of the British grain trade says: English wheats are 4d lower on the average London price. Country markets are firmer. Foveign wheats are firmer for all sorts. At Liverpool foreign wheats are 1d higher. Lessening shipments of American and Russian has caused a fendency in favor of sellers. At to-day's market English wheats were sparce and were held for 6d advance. Foreign wheats were firm, and especially Australian. Flour was in good request. Australian. Flour was in good request.

TELEGRAPHIC BREVITIES.

Nearly the entire business portion of the town of Les Gates, Cal., was destroyed by fire. Loss, \$60,000.

An old tramp was burned to death in a fire at the Kanawha coal works near Cincinnati last night. The general Labor Federation refused to

nescind its action in sending Lucier Sanial othe Brussels convention. The delegate was instructed to say that the principles of the federation are identical to a Socialist

labor party. At Bay of Island, New Foundland, the

commander of her majesty's ship, Pelican, compelled the lobster factories to cease operations, and the people are without means. The French factories were undisturbed.

In a fight between Italian and Polish laborers in the salt mines at Gregsville, near Mount Morris, N. Y., three Italians were stabbed, two seriously, and two Poles were cut on the legs. The Italians escaped on the train, but were arrested and brought back here.

Three boys attempted to wreck a p ger train at Port Waltham Va., by constructions on the trace. The end discovered the obstructions and not the train. The box wer arrested.

The Deep Water Port of the Trans Mississippi.

A writer in Bradstreet's Weekly, says deep water navigation is the father of commercial greatness." The people of Gal eston have believed that and have placed their entire hope of becoming a great city on getting deep water. Velasco hoists a banner with deep water

emblazoned upon it, and exclaims: "Sub hoc signia vincinus." It will be amusing and interesting to note the capers of these two rival places. The success of either, or of both, will be the success of Texas. Of course Galveston now has the government on her side, for the government must stand by her engineers one and all, like a mother by her children, even if they have grown stupid with well-fed idleness; but Velasco has the water, despite the reports of Uncle Sam's engineers that deep water could not be obtained at the mouth of the Brazos.

And Mr. Street says deep water is the parent of commercial greatness, and Galveston says Mr. Street is eminenelly correct.

President Harrison and his cabinet said. many good and true things cabout Galves-ton. As an advertisement, nothing it ton. As an advertisement, nothing it seemed at the time could be stronger or better. However, the hard hitter was the secretary of he treasure, and he was not in the preside tital part. July 7th instant he struck a blo at Velasco as lo be remembered sun-dried beach the collector of cu claring Velasco a at Galveston deof entry pending the e says: "In view of meeting of congr er the bar at your the fact that the pth for vessels of sels, although forport is not of suff certain draught. eign, may be all That is why hard hitter. It was probably a summer effort of the Maine senator. It was published in the "Forum." and the adver-tising agents wrote the Velasco people so-liciting liberal advertisements for that issue, setting forth the Frye article on gulf ports as a reason why they should advertise. The article appeared, and it mentioned every port on the whole Gulf of Mexico except the mouth of the Brazos. The velasco people say Senator Frye doesn't know it all, if he is a neighbor of Blaine's. President Lott mercilessly crushed one deep water boomlet the other day. Poor Aransas, Mr. Lott has turned his back on you. I suppose you wish he would emulate the example of his ancestress of the same name and suffer the same fate. Who is sorry for the purchase of lots in Lott's lot-tery! Why, the Velasco people. They say: "Come over and live with us and realize your rosiest expectations. Next time buy where deep water is a fact, and not a

At Galveston a steamship is now loading with Texas wheat. She cleared the Gal-veston bar carrying 61,000 bushels, drawing thirteen feet, six inches and lightered 22,-850 bushels at a cost of \$600. Had she oaded in Velasco, she could have taken on her whole cargo, S3.450 bushels, without lightering at all, and gone over the bar drawing sixteen feet two inches. She would have saved \$600 lighterage, \$58 pilot-age, and \$645.44 wharfage, a total of

That extra money, which is the result of a shallow port, is paid by the farmer in North Texas who raised that wheat. North Texas who raised that wheat.

The three-masted schooner, Henry P. Mason, on July 10th fust. unassisted by a tugboat, sailed over the bar at Velasco, drawing sixteen feet six inches of water.

Capt. Percy, the commander, said he re-gretted that he had not loaded to draw seventeen feet six inches, for the freight on the extra cargo would have paid the entire expense of his trip. He was enthusiastic in his praise of the work done here and the

harbor. He gave a convincing proof of the sincerity of his belief in Velasco by purchasing \$3000 worth of lots.

Thirty days ago at the town-site of Velasco there was nothing but beautiful live-oak trees. Now it is almost covered with humber and hundreds of workmen are grading streets and houderwards and build. grading streets and boulevards and build-ing houses and wharves. A large four-story hotel is rising away above the trees and it is alive with workmen. They say every man who comes to see the place invests. This I do not know, but a happier lot of real estate men I never saw. They must be making pleasing commissions.

Another large ship from New York, the

St. Louis, Mo., July 37.—Wheat—The whole crowd of both buils and bears alike had a surprise this morning in a market that turned strong and advanced in the face of the largest receipts of the season. Prices were \$200 lower at the opening. Everything in sight was quickly taken however, and offerings decreased rapidly, when it was seen that other markets were advancing instead of acclaring, and a quick raily took place. It continued and the market kept on the upwarsttrack with scarcely a skip until the close, which was \$200 to above Saturday.

August, 86-je bid: September, 87-jc; December, 90-je.

Corn—An urgent demand developed at the opening, and as offerings were small a quick advance toolt place. Late in the session the market again became very bullish, and prices shot up radially, closing 3527-jc, above Saturday, No. 2 cash, 59c; July, 59c had; August, 57; September 595-c.

CHICAGO, Ita., July 27 .- It was a dull day or the boards. The boom started in very soon after the opening. First prices were lowest of the day and closing quotations were at or near the day and closing quotations were at or near the top figures of session. Corn was responsible for starting the riot, and it led the procession and closed with a phenominal advance. Excepting corn opening quotations were weak and lower, but when the shorts in the corn pit becam to climbup on each other's shoulders in their frantic endeavors to ret some of the hoecake cereal regardless of prices asked, dealers in the other pits caught the infection and began rapidly to advance.
